HILUX 4WD

4WD DOUBLE CAB SR5 DIESEL IN TIDAL BLUE (ACCESSORIES ALSO SHOWN)

HILUX
NEW ZEALAND
PROVEN

The Hilux might be available the world over, but it's about as Kiwi as you can get. We've enjoyed a relationship with the rugged and reliable Hilux since 1976 and New Zealanders have made it their favourite truck for an incredible 32 years in a row.

It has become synonymous with versatility and reliability, boasting convenience and comfort to match its go-anywhere, do-anything ethos.

Whether in the paddock, on the project site or parking the boat, there's a Hilux 4WD for every driver and every task. Quite simply, this is our truck.

HILUX NEW ZEALAND PROVEN

DRIVING PERFORMANCE

It's a given you'll go further in a Hilux. Whether that's thanks to the fuel efficiency of our proven 3.0-litre, four cylinder, in-line Turbo Diesel engine, delivering 126kW of power and 343Nm of torque, or the robust reputation of our 4WD system; the Hilux range will see you through.

The Hilux 4WD diesel gives you the option of a five-speed manual transmission in all grades. Alternatively a 5-speed Electronically Controlled automatic Transmission (ECT) is available in Double Cab and Double Cab SR5 models.

Our 4.0-litre, V6, 24 valve Quad Cam petrol Double Cab SR5 comes exclusively with the 5-speed ECT transmission and gives you all the power you'll need for the open road or the access track; 175kW of grunt matched with 376Nm of torque.

There's always the chance you'll be covering some fairly tough terrain, so our engineers have worked hard to create a more dynamic, yet still fully independent, front suspension system, to complement our proven rear leaf spring rigid axle design. Both are optimised for nimble handling and ultimate comfort. Big city or back country, the Hilux provides performance guaranteed.

4WD DOUBLE CAB SR5 DIESEL IN TIDAL BLUE (ACCESSORIES ALSO SHOWN)

ON AND OFF THE ROAD

.....

Take two examples of the exact same model Hilux, with the exact same spec. Chances are these two trucks will lead completely different lives. One might rarely see a paved road, while the other might never leave tarmac. One might tow a mini excavator on a tandem trailer every day, while the occasional visit to the garden centre might be all the other is tasked with.

That's why our engineers have made sure every single Hilux is ready for whatever comes its way, both on and off the road.

Hilux 4WD models feature intuitive Vehicle Stability Control (VSC) ensuring safe cornering no matter what the conditions, because you never know what's around the next corner. Our proven Anti-lock Braking system (ABS) fills you with confidence to stop safely when you need to. Hilux 4WD models also come with Electronic Brake-force Distribution (EBD) and Brake Assist (BA) for even more control.

Add to all of this an aerodynamics-enhancing engine undercover for improved steering, stability and – ultimately – fuel economy and it's clear the Hilux possesses the tech to match the tough.

4WD SINGLE CAB CHASSIS DIESEL IN TIDAL BLUE (ACCESSORY TRAY SHOWN)

DIESEL POWER AND PERFORMANCE

Whichever Hilux is right for you, the robust and reliable 3.0-litre, four cylinder in-line turbo diesel engine available will see you right in any situation. Featuring impressive off-the-line performance, the D-4D engine's common rail system maximises low-end torque; delivering an impressive 343Nm from only 1400rpm.

You can get through the rough stuff on the job site, or cruise to your favourite holiday destination safe in the knowledge this 126kW turbo diesel has been optimised for increased fuel efficiency, yet produces less emissions.

PETROL POWER AND PERFORMANCE

Available exclusively in the range-topping Hilux Double Cab SR5, the petrol 4.0-litre, six cylinder 24 valve Quad Cam engine gives you unbeatable power and responsiveness with effortless 0-100kmh acceleration.

Smooth, quiet and powerful, the V6 petrol engine provides a car-like feel to the Hilux experience. It possesses all the practicalities and performance synonymous with the Hilux 4WD Double Cab SR5.

The V6 petrol affords those looking to embrace the great Kiwi lifestyle the most worry-free way of getting out there and enjoying it.

4WD DOUBLE CAB DIESEL IN GLACIER WHITE

EXTERIOR STYLING

Toyota's engineers have been where you've been and they've seen for themselves the conditions you operate in; they understand New Zealand's varied landscapes, and what New Zealand drivers expect of their truck, whether it's for work, play or both.

Over its many generations of development, the exterior styling of the Hilux has been redesigned, improved and enhanced. Whether in Single Cab Chassis or Double Cab SR5, the Hilux exudes power and elegance in equal measure. It's the details that make a difference and even if your Hilux is a fit-for-purpose work tool, those details still abound. Check out the sweeping grille design,

the muscular body lines or the low-profile central scoop set into the bonnet of 3.0-litre diesel models.

Then there's the the body-coloured front bumper section and, on Hilux SR5 models, an aggressive 17" alloy wheel design and recessed fog lights.

There's a practical reason for the Hilux 4WD's ride height too; with a 30 degree approach and 23 degree departure angle, there's enough clearance to get you down and into, or up and over anything our fantastic terrain offers up.

INTERIOR CONVENIENCE

Wherever you take your Hilux, getting there in comfort and with all the convenience items that matter right where you need them is important. Whether it's a work trip or a weekend cruise, a spacious interior with quality materials and modern features makes the journey all the better.

That's why every single Hilux features cruise control, Bluetooth handsfree phone operation and audio streaming, along with voice control software and a separate USB connection as standard. All Hilux steering wheels also support controls for the audio system, Bluetooth phone connection and Multi-Information Display (MID), which lets you see vital information about your trip at a glance.

Hilux SR5 models also have a handy tailgate mounted reversing camera with a full-colour display screen, making reversing, parking and trailer hitching manoeuvres on the job site or in the city centre much safer and easier. That full-colour display screen in the Hilux SR5 is also where you can plan your trip with the help of the standard satellite navigation system. This system offers SUNA traffic avoidance system providing real-time updates about major arterial roads and motorways relevant to your location in order to help you find the most optimal route at any time of day (selected areas only). Real convenience is everywhere.

CONVENIENT STORAGE AND TECHNOLOGY

HILUX DOUBLE CAB SR5

SAFE AND SECURE

You can't build the sort of solid reputation the Hilux range enjoys without testing, refining and engineering a vehicle to ensure it gives as good as it gets. While reliable performance both on and off the road is a given, our development team has also worked hard to create a truck that offers a robust suite of safety measures for your peace of mind, wherever you take it.

Every 5-Star ANCAP safety-rated Hilux 4WD model features an Vehicle Stability Control (VSC) and Anti-lock Braking system (ABS) to stop you safely.

Our 4WD Hilux range also features driver and passenger front, side and front curtain airbags plus 3-point seatbelts for all seating positions. Extra and Double cab models also boast rear curtain shield airbags and outer rear seatbelts with ALR functionality.

REAR CURTAIN SHIELD AIRBAGS IN DOUBLE CAB

Single Cab Chassis (Diesel)

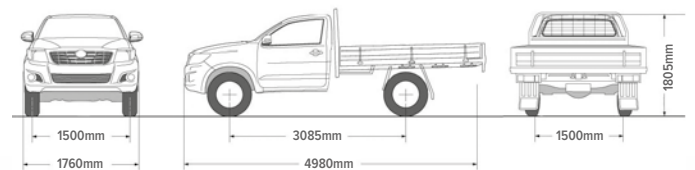

The **Single Cab Chassis** is a classic workhorse, ready for you to add your own personal specification. With a fuel efficient 3.0-litre turbo diesel engine onboard and a 2800kg braked towing capacity, there's one for every purpose.

Fuel Consumption*: 8.3L/100km (combined)
CO ₂ emissions: 219g/km (combined)

Toyota Genuine Accessories

Because every Hilux is expected to perform a specific task, over 200 individual accessory options are available to help tailor your vehicle to your needs. Front, back, interior and exterior; the Hilux is covered. Fitting Toyota Genuine Accessories also ensures the integrity of your vehicle, with components tested to exacting standards for New Zealand conditions and backed by a 3 year or 100,000 kilometres* warranty.

*Whichever comes first. Warranty valid from when accessory fitted, at time of new vehicle purchase at your authorised Toyota Dealer.

Deluxe Nudge Bar

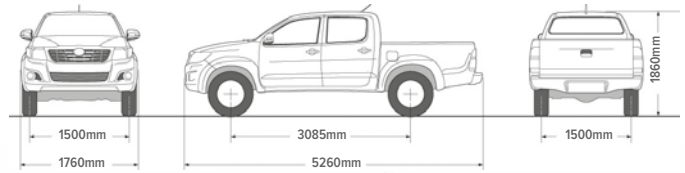

Double Cab (Diesel)

At home on the hillside or the highway, the **Double Cab** is one sure-footed, reliable Hilux that won't limit your lifestyle. Whether it's your work crew or your family onboard, there's plenty of space and specification for your workday or your weekend.
