IN THE ALL NEW

2012 YARIS

THE FRESH EXTERIOR DESIGN of the Yaris ensures the European inspired compact car is agile, dynamic, and has easy manoeuvrability in a body sized for your 21st century urban life. A distinctive strongly styled front bumper and grille with sharp body lines anchor the car's wide stance which supports the nimble handling you require. Take note of the alloy wheels and front fog lights that add a touch of class to the YRS model.

INTERIOR CONVENIENCE and a sportier design emphasises the fun-to-drive nature of Yaris that's more pleasant for you and your occupants. The strong horizontal lines throughout the cabin gives a greater feeling of space. The cockpit has been designed with you in mind, with a comprehensive Multi Information Display (MID) for all models and an audio system with USB and AUX connections, handsfree Bluetooth phone, audio streaming and voice recognition for a truly enjoyable experience.

ADVANCED SAFETY FEATURES in Yaris mean you will have complete peace of mind anywhere you travel. Yaris is equipped with nine airbags - driver and front passenger front airbags, front seat side and front/rear curtain shield airbags plus a driver's knee airbag. Impact absorbing materials are used throughout the interior to reduce injury, but just in case, the Yaris also has front seatbelt pre-tensioners and force limiters to help restrain occupants for maximum protection and to minimise injury.

DYNAMIC ON-ROAD PERFORMANCE and an improved driving position ensures your journey is always comfortable. Feel the power of the VVT-i engine as it balances driving economy and lively driving performance. Yaris is ready for all of life's twists and turns with an Anti-lock Braking System (ABS) featuring Electronic Brake-force Distribution (EBD) and Brake Assist (BA). For even more control when handling in tricky situations Vehicle Stability Control (VSC) and Traction Control (TRC) are standard for all grades.

For thirsty travellers there are four cup holders throughout the interior and bottle holders in both front doors.

Two ISO fixing points will allow children's car seats to be safely secured in the back seat.

Yes it's big on safety. With nine airbags, an impact absorbing body structure and a high strength frame, you will have complete safety piece of mind.

Both Yaris engines employ VVT-i (Variable Valve Timing-intelligent) for superior performance, low emissions and superb economy. All models have a 4 speed automatic transmission. The YR 5 door also has a 5 speed manual transmission available.

Yaris YRS shows its top model status with leather trimmed steering wheel and gear lever.

The multi-reflector halogen headlights provide brilliant illumination for night time driving and are part of the aerodynamic body design that achieves a drag co-efficient of 0.30.

YARIS

YR 1.3L 3 door

4 speed automatic transmission

Without compromising on space and comfort, the 3 door is a lively performer and perfect for your busy city lifestyle.

*6.3L/100km
147g/km

Sit inside and you will enjoy the high quality textured surfaces and two-tone fabric seats that all Yaris models have to offer. The steering wheel is D-shaped to give you more leg room and has larger finger rests for a more comfortable and natural grip.

The walk-in seat function gives easy access to rear seats in Yaris YR 3 door.

Underfloor storage and split folding rear seats make it easy to adapt for a variety of luggage needs.

Your interior comfort is easily sorted with the tactile dials for air conditioning, air intake and heater.

The large glovebox is one of 24 storage areas in 4 door models, the 3 door has 22.
